

Whats going on with Summer camp registration

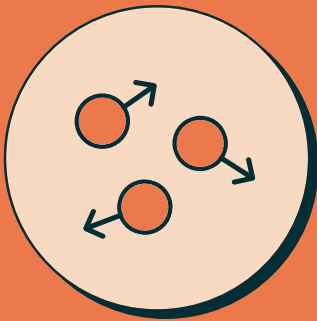

Redgpak

Redgpak was the registration system we were using over the last several sessions. It was confusing for users and wasn't clear about payment. So we decided to switch

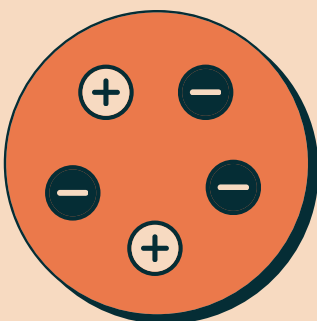

So whats next?

the programming staff for Calpac called local camps and asked them how they feel about the systems that they use and if they had any major problems. Two organizations stood out and will hopefully mitigate issues we have had in the past.

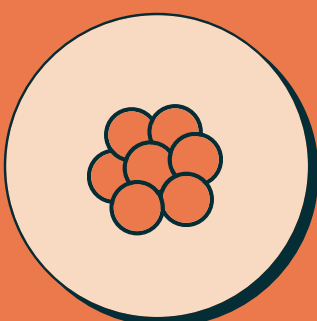

Introducing Campminder

Campminder is a software that is run by camping professionals around the country and offers robust ways to increase communication and manage your camper's information! You can google them at campminder.com

Sounds Great! Whats the hold up?

Switching contracts is not a fast process. Contracts need to be signed and looked over. Payments need to be approved and development needs to happen. If you are not finding a registration link that means we are stuck in one or more of these stages.

So what can I do?

We made a Formstack to put your information in so as soon as everything is launched, you get to be the first to know. We can't use Formstack for summer because of how long we need to keep information in our records. But this is a good platform to keep you in the loop!

FORMSTACK:
